All Night Dancing

Lipps, Inc.

When you get the feelin deep inside your bone
Dancin is the thing to do
Step into the lights, itll take you to new heights
Dancin is the thing that you doFantasize that youre the greatest
Close your eyes an' make believe
You know you can do the latest dance
So dance with me, wont you do it with meAll night dancin
I think about it all day long
All night dancin
Think about it all day longYoure lookin kinda hot, so jump into the spot
Shinin bright somewhere above
Waitin all day long just to hear your favorite song
Then dancin to that beat that you loveMovin like no other dancer
Sparks are flyin' off the floor
You can dance 'til dawn, but I can only
Dance just a little bit moreAll night dancin
I think about it all day long
All night dancin
Think about it all day longWhen you get the feelin deep inside your bone
Dancin is the thing to do
You step into the lights, itll take you to new heights
Dancin is the thing that you doFantasize that youre the greatest
Close your eyes and make believe
You know you can do the latest dance
So dance with me, wont you do it with meAll night dancin
I think about it all day long
All night dancin
