Revo

Panam Panic

Close your eyes and take my hand
Throw out what the teacher said
The revolution's in my head
The revolution's in my head
Raise the mast and set your sails
Just say when...
Just say when...
Just say when...
Just say when...
Go!!!
I got a fever that I can't control
I'm knee deep and I don't even know my name
I forgot about it!

I'm on fire, I'm a burning coal
We can't fight it cause we never sold the flame
Not for love or money
Close your eyes and take my hand
Silenced by the driving sound
The revolution's in my head
The revolution's in my head
Raise your fist and stand your ground!
Hey hey you know we're never coming down!
Hey hey you know we're never coming down!
Hey hey you know we're never coming down!
Hey hey you know we're never coming down!
Go!!!
