

# Miss Incredible

Mark Ballas

She got that fire,  
I'm burning up,  
Hopeless desire,  
That I can't be enough of,  
And she don't even know it,  
That any given moment,  
She'll be Rollin' with me, I can't stop starin'  
At her design,  
Extraordinary,  
And she don't realize,  
Got that little extra somethin',  
Can't put my finger on it,  
But I like what I see, Wanna put my hands all up on your body,  
Take you further than you thought you could go,  
You got the power and the touch of a goddess,  
I'mma call you Miss Incredible,  
All the girls around the world  
You so incredible,  
Her laugh's contagious,  
She doesn't try,  
One of those faces money couldn't buy,  
And she don't even know it,  
That any given moment she'll be Rollin' with me, Wanna put my hands all up on your body,  
Take you further than you thought you could go,  
You got the power and the touch of a goddess,  
I'mma call you Miss Incredible,  
All the girls around the world  
You so incredible, She makes me feel incredible,  
I wanna make her feel incredible, Wanna put my hands all up on your body,  
Take you further than you thought you could go,  
You got the power and the touch of a goddess,  
I'mma call you Miss Incredible,  
All the girls around the world  
You so incredible
