Come Down Father

Luciano

Yeah Lord, Oh God,

Come down Father, and look at what you see
A lot of concrete, where green used to be
Come down Jah Jah, come down I pray,
You won't believe, all the things you'll see today,

Come down Father, and look at common man,
He is illness, disease unto the land,
Come down Jah Jah, come down I pray,
You won't believe, all the things you'll see today,

Come down Father, oh come down my Lord,
Won't you help me clean my land of the fire and that wars,
Come down Jah Jah, Oh come and see the sights,
Big city and electric lights, little children haven't had a bite,
Come down Father, now tell me do you think this is right?
Come down Lord.

Oh God,

oh yes,

Come down Father, and look at modern man,
Human cancer, created by your hand,
Come down Jah Jah, come down I pray,
You won't believe, all the things you'll see today,

Come down Father, and look at what you see,
A lot of concrete, where green used to be
Come down Jah Jah, come down I pray,
You won't believe, all the things you'll see today,

Come down Father, oh come down my Lord,
Won't you help me clean my land of the fire and that faults,
Come down Jah Jah, Oh come and see the sights,
Big city and electric lights, little children haven't had a bite,
Come down Father, well tell me do you think this is right?

Come down Jah Jah, Oh come and see the sights,

Big city and electric lights, little children haven't had a bite,
Come down Father, well tell me do you think this is right?
Come down Father, well tell me do you think this is right?
Come down Father, well tell me do you think this is right?
Come down Father, well tell me do you think this is right?
Do you think this is right?

Oh my God, come down Father,
Father come down, father please,
Do you think this is right?

Tell me now, do you think this is right?
