

Flight #303

Feist

Three oh three, three oh three
Three oh three, three oh three
Bring a lot of love, bring a lot of love
Bring a lot of love
And you knew would be left way way waiting
Wear a yellow hat
I catch you fallen at the laundromat
See pilot soon
And even he would give you your
Flight number, flight number
Flight number flight
Flight number, flight number
Flight number flight
Three oh three, three oh three
Three oh three, three oh three
See a tailor soon
He'll call you on your life of silver spoon
No one gets a say on how to raise
And in what way way way way
Put some faith in the apartment twine
Get red key and a door to lock up
I like to think I am a one way lie
So you don't wait until the time is right
Three oh three, three oh three
Three oh three, three oh three
Three oh three, three oh three
Three oh three, three oh three
Three oh three, three oh three
Three oh three
