Turn back Time

Tragedian

Days are feeling shorter,nights are very long
Thoughts are in my mind,playing like a song
Memories of the past im trying to hold
Those that were made of silver and goldI stare at the sky, wishing on a star
Making true a dream,healing wounded scars
Finally the day has come to set me free
But blinded by a myth,the end was not forseenCHORUS
If i could only,reach and turn back time
To feel my soul reborn and live out life
If i could only,reach and turn back time
To the day i had thought,the world was mineIt really doesent matter if i die alone or not
Sollitude and darkness was all i ever got
Now that my life has become what it is
A certain time and place my soul will always missCHORUS
If i could only,reach and turn back time
To feel my soul reborn and live out life
If i could only,reach and turn back time
To the day i had thought,the world was mine
