Germ

Subhumans

I am a germ under your skin
I crawl through your veins and I work my way in
I play with your health I destroy all there is
I m the germ in your mouth when you give her a kissAnd tomorrow they'll put you away
And the doctors all they will say
Is- You re gonna dieI am a germ under your skin
Like a hypodermic needle pushed in
I run in your blood and I screw up your brain
I've got a disease just to send you insaneI am a germ under your skin
And I got a feeling I m gonna win
It s no use believing in the national health
Cos when you are dead I'll destroy someone else
