

Calm Down (feat. Four Tet & Floating Points)

[Katy B](#)

When are we ever gon' to calm down?
No I should do, but I love the sound
All I really wanna do is dance
My lover, he's asking when I gotta leave to get home
Now I'm far too caught up in the song
All I really wanna do is dance There's a secret I feel [?] joyment, when I be myself
What would I want to [?] when I [?]
Leave me alone now boy [?] can't you tell
All I really wanna do is, yeah
Get down, down, down, down, down, down, down, down, down ... When are we ever gon' for calm down?
No I should do, but I love the sound
I have been a bird of prey, I fly
See my lovers, gone mad with me in the morning
See that they all get [?]
Watch the colors seep into the sky, sky There's a secret I feel [?] joyment, when I be myself
What would I want to [?] when I [?]
Leave me alone now boy [?] can't you tell
All I really wanna do is, yeah
Get down, down, down, down, down, down, down, down, down If you [?] is taken all control now
Taken all control of me
If you [?] is borrowed in my soul now
Deep down, deep down
[?] space without it
I'm so hollow, I'm so empty
It's too late for thinking 'bout tomorrow
Ooh ooh ooh ooh So keep calm (down, down, down, down, down, down) ...
