Abandon in Place

Biohazard

I will never forget what it is that you did to me
And I will never understand why
You insist upon inflicting pain and agony
On me forever everlastingThere's no way out, I'll never break free
I will never forgive and forget how you abandoned me
There's no way out, I'll never break free
I will never forgive and forget how you abandoned meAll my fucking life I've keep my head held high
Respected myself through thick or thin
Never asked anybody for anything
I just want to live with peace and dignity
But you insist on trying to pull me downThere's no way out, I'll never break free
I will never forgive and forget how you abandoned me
There's no way out, I'll never break free
I will never forgive and forget how you abandoned meWhere were you when I needed you
You were never around
I put my faith in you and you let me downThere's no way out, I'll never break free
I will never forgive and forget how you abandoned me
There's no way out, I'll never break free
I will never forgive and forget how you abandoned meMotherfucker
