

Gotta Know Right Now

Smoking Popes

If I told you that I really
Really liked you a lot
I've wanted to for a long
Long time but I never had the guts I wonder what you would say
I just can't go on this way
I gotta know right now, today I call your name from the
Window of my car as I drive
I wanna do something half insane
To prove to you that I'm alive I wonder what you would say
I just can't go on this way
I gotta know right now, today As I walk by your house
For the third time tonight
And I stand in your drive way
Hypnotized by your bedroom light I wonder what you would say
I just can't go on this way
I gotta know right now, today I gotta know right now
I gotta know right now
I gotta know right now
