

Numb

Love Equals Death

Good friends and indecisions make good company
I think, I'll drink myself to sleep
No time to waste, just my sanity
I'm gonna drink myself free I'm so numb
So numb, I can't feel respect for the finer things in life
So numb
I found heaven tonight He couldn't get it together not even if he tried
They say his spirit has died
That's what they say but we all make mistakes
I think somebody has lied I'm so numb
So numb, I can't feel respect for the finer things in life
So numb
I found heaven tonight
