

# Softer Side

## Psychic Friend

Got two in my hand and one up my sleeve  
From breaking the bread to never say please  
It sweetened to taste, whose side are you on?  
You're winning a race, a king or a pawn

It's coming apart, apart at the seams  
You know what I want, you know what I need  
From zero to 10, an A to a Z  
The hero again, with nowhere to be

Find the softer side of you, hide the softer side of me  
Find the softer side of you, hide the softer side of me

From once in awhile to habitually  
You do what you say, I know what you mean  
From finding a fault to building a steam  
From never again to living the dream

Find the softer side of you, hide the softer side of me  
Find the softer side of you, hide the softer side of me

In the shadows keep your eyes closed  
Build your microbes  
Hungry eyes froze

Find the softer side of you, hide the softer side of me  
Find the softer side of you, hide the softer side of me  
Find the softer side, hide the softer side of you
