

Call Me

Mint Condition

Call me, call me, call me
Call me, call me, call me
Call me, call me I overheard you and your girlfriend talkin'
Problems with your man's infidelity
The same thing happened to me and my lady
So I left you with my card anonymously Call me, if you will, call me
'Cause I know how you feel, call me
Fax me, baby, here's my number
Eight two five four two sixty three, just call me So you made up your mind to make this visit
Checkin' up on people is my business
You needed confirmation for suspicions
That left you crying over a thousand minutes Now suddenly I feel the plot thickening
I find myself having to atone
This situation has my mind spinning
'Cause now I really want you for my own, my own Call me, if you will, call me
'Cause I know how you feel, call me
Fax me, baby, here's my number
Eight two five four two sixty three, just call me Call me, if you will, call me
'Cause I know how you feel, call me
Fax me, baby, here's my number
Eight two five four two sixty three, just call me Call me, if you will, call me
'Cause I know how you feel, call me
Fax me, baby, here's my number
Eight two five four two sixty three, just call me Call me, if you will, call me
'Cause I know how you feel, call me
Fax me, baby, here's my number
Eight two five four two sixty three, just call me Call me, call me, call me, call me
Call me, eight two five four two sixty three
Call me, call me, call me
Call me
