

Let Go For Tonight

Foxes

[Foxes]

Fell from the sky

We fell from the sky and started walking

Leavin' our footprints on the ground It might be a prayer

Or maybe a piece of conversation

Wherever we go we make a sound So I call your name, the only thing I know

Is I need you here, will you be gone forever?

All that I know, all that I know is we're here tonight

Turn off the lights Let go for tonight baby

Let love in your life and be shown (turn off the lights)

Let go for tonight baby, who needs sleep tonight?

I need to let go, let go

Let go, let go, turn off the lights

Let love in your life baby, who needs sleep tonight? I wanna drive

I wanna drive into the open

Lookin' for reasons I can't find So I call your name, the only thing I know

Is I need you here, will you be gone forever?

All that I know, all that I know is we're here tonight

Turn off the lights Let go for tonight baby

Let love in your life and be shown (turn off the lights)

Let go for tonight baby, who needs sleep tonight?

I need to let go, let go

Let go, let go, turn off the lights

Let love in your life baby, who needs sleep tonight? I need to let go, let go

Let go, let go

I need to let go, let go

Before we're gone, gone, gone So I call your name, the only thing I know

Is I need you here, will you be gone forever?

All that I know, all that I know

Is I need you here, will you be gone forever? What do you want?

I need you here, will you be gone forever?

All that I know, all that I know

Is we're here tonight

Turn off the lights Let go for tonight baby

Let love in your life and be shown (turn off the lights)

Let go for tonight baby, who needs sleep tonight?

I need to let go, let go

Let go, let go, turn off the lights

Let love in your life baby, who needs sleep tonight? I need to let go, let go

Let go, let go
I need to let go, let go
Fell from the sky
We fell from the sky and started walking
Leavin' our footprints on the ground
