The Little Ways

The Elms

Evenin' falls half-golden
On a desert interstate.
Some days I'm out here driving
And I miss you in the little ways.I thought we'd be like partners,
Keepin' secrets and each other safe.
But down the road I lost you,
But you're still here in the little ways.Oh, I miss you.
Oh, I miss you right away.
There's a part of my heart where you'll always stay.
Oh, I miss you.
Oh I miss you when you're gone.
There's a part of my heart where you still belong.In my mind I see you
And you tell me it'll be alright.
You kept me free from worry,
And it hurt me not to say goodbye.Oh, I miss you.
Oh, I miss you right away.
There's a part of my heart where you'll always stay.
Oh, I miss you.
Oh I miss you when you're gone.
There's a part of my heart where you still belong.I ain't gonna leave behind
All the memories and time
The places and the miles.And when I think I hear you call
Like a voice behind the wall,
I miss it all.When all else is forgotten,
I'll remember all the better days.
If you are out there somewhere
I will find you in the little ways.
