

# Hands Down

## Dog Is Dead

Maybe I'm too old  
Cause this seems far too new for me  
Its an easy drive home, for the passenger Did your life get lost?  
Between the sheets of all your burdens  
I know the devils not far, and is testing us When your friends keep climbing on your bedroom wall  
You can't keep telling them you'll never be as tall  
...as your old man Darling I'm telling you hands down  
The greatest thing about this  
I'm telling you hands down Darling I'm telling you hands down  
The greatest thing about this  
I'm telling you hands down Maybe you're too young  
Too see this all come true  
You want to live your life as a hummingbird You fill your head with ghosts  
Come in, inside my dreams  
I turn the headlights on, and you disappear. But your friends keep hiding in your kitchen and your walls  
You can't keep telling them you'll never get it all  
for one last chance... Darling I'm telling you hands down  
the greatest thing about this  
I'm telling you hands down  
darling I'm telling you hands down  
The greatest thing about this  
I'm telling you hands down (instrumental) Darling I'm telling you hands down  
the greatest thing about this  
I'm telling you hands down
