One Night

Martina Mcbride

It's like I waited my whole life
For us to be together
This one night
Let's make it last forever now
Kick it up, turn it up
Keep the fire going
Till we burn it up, live it up
I just want to light up the sky
For this one night, one night, one night
Don't need money in my pocket now
Don't care what the world is talkin' 'bout
You and me all that really matters
Is us tonight, yeah, us tonight
And I've got all my friends around me and
We're here only here to party and
Won't stop till we see the sun and get it right
Till we get it right
And we can't turn back yeah
It's like I waited my whole life
For us to be together
This one night
Let's make it last forever now
Kick it up, turn it up
Keep the fire going
Till we burn it up, live it up
I just want to light up the sky
For this one night, one night, one night
Let's go anywhere we wanna 'cause
Right now, nobody can mess with us

Give them something to remember
Come with me now
Are you with me now
Cause we can't turn back yeah
It's like I waited my whole life
For us to be together
This one night
Let's make it last forever now
Kick it up, turn it up

Keep the fire going
Till we burn it up, live it up
I just want to light up the sky
For this one night, one night, one night
Let's get it going
It's now or never yeah
This is the moment
Cause we're together yeah
And you know we can't turn back now
It's like I waited my whole life
For us to be together
This one night
Let's make it last forever now
Kick it up, turn it up
Keep the fire going
Till we burn it up, live it up
I just want to light up the sky
I just want to light up the sky
I just want to light up the sky
For this one night, one night, one night
Oh whoa
