

# San Antonio Rose to You

[Rick Trevino](#)

When I was a young boy I could play any song  
From rock & roll to country, I could play all night long  
Grandpa would tell me, play that Rose of San Antone  
And I'd just smile in my youth & say I'd learn it later onChorus  
Here's my San Antonio rose to you  
The song you wanted me to learn for you  
Whatever you go, this song's for you  
Here's my San Antonio rose, & it goes out to youMaybe I thought Grandpa would be around forever  
It never crossed my mind how fast he could go  
Soon I grew much older and so did he  
Suddenly I realized how fast we grow oldChorusThe day Grandpa left us was a day I can't forget  
Never did I learn his song  
So if you're listening from up above keep those  
Tears from my eyes  
And let me know that I've touched you so  
High in the skyChorus
