

# Astral Traveller

## Yes

And in the ruins of the balloon  
Stood a man with glasses held high  
Wondering when to do it again  
Have another fly into the sky  
Somewhere flying high Astral traveller  
Leaving without her  
Wandering where lights go  
Leave out the body load Once in the air, people who dare  
Get a great respect in being  
Heavenly flight, wondrous night  
And all the sights worth seeing  
Just believe in Astral traveller  
Leaving without her  
Wandering where lights go  
Leave out the body load Once in the air, people who dare  
Get a great respect in being  
Heavenly flight, wondrous night  
And all the sights worth seeing  
Just believe in Astral traveller  
Leaving without her  
Wandering where lights go  
Leave out the body load
