Tonight Is the Night

Jerzee Monet

I know I been telling you
That it's not time
To give you loving physically
Baby, you respected and felt meNow I feel something
Something that I never felt before
It's a feelin' that I can't ignore
Sayin' it's okay that I want more
So babyDon't go, don't leave
Stay here, hold me
I know and you know
Tonight is the night, babyDon't go, don't leave
Stay here, hold me
I know and you know
Tonight is the night, babyBaby, don't be afraid
To touch my body
I know that it's been quite some time
Let me give you everything I been savin' upThis time let me break it down
Down, down, down, down, down
I know that, feelin' it
You know that I'm feelin' it tooOnly one thing left to do
I feel that it's time
To finally make you mine
I wanna make love to youDon't go, don't leave
Stay here, hold me
I know and you know
Tonight is the night, babyDon't go, don't leave
Stay here, hold me
I know and you know
Tonight is the night, babyDon't go, don't leave
Stay here, hold me
I know and you know
Tonight is the night, baby
