

# Break So Easily

## The Mighty Mighty Bosstones

You would break so easily  
So fragile that it frightens me  
A harsh sudden reality  
A painful possibility

To see it's like the strangest dream  
to be it needs to still be seen  
As loud as any noise you've heard  
As quiet as a whispered word

Try to answer questions forced  
Forced inside of me  
You were forced across the line  
You're not providing me

You would break so easily  
I watched you break so easily  
What's it like to be right up against  
Not stay on this side of the fence

A line so fine it can't be traced  
A life so suddenly erased  
Two came through just like a train  
A flash and nothing's been the same

Try to answer questions forced  
Forced inside of me  
You took the answers when you broke  
So easily you're gone

Once the same until  
You broke so easily  
Tell me now

---
