

That's What My Heart Needs

Otis Redding

You left me for another
You told me, he was your lover
So I'm begging and I'm pleading
And I'm down on bended knee, oh baby
That's what my heart needBaby, oh baby
I'm calling you out loud and clear, baby, oh baby
I love you, yes I do
And I wanna be near you, oh baby
That's what my heart needDarling, my my darling
I need you here right by my side, baby, darling
If you hadn't left that day
Then my love wouldn't be this way, oh baby
That's what my heart needCome on, my baby
I said I need you right here by my side
I said I need you, baby
I need you here to protect me and be my guide
And oh, oh, yeah baby
