Nova era

Angra

Somehow I know
The things are gonna change
New boundaries on the way
Like never before
Healing whispers of the angels
Bring the sunrise again
Find a meaning to your lifeNova Era brings the ashes back to life
New day shines, fallen angels will arise
All over now, sores in pain and awful lies
Back to life!
Angels will ariseFresh winds of hope
Has taken us ahead
You have to keep in mind
Forever is a place
No way to limit our goals
You'll find a reason to believe
Facing Nova Era[Chorus]
Oh! Come on! Arise!Find a meaning to your life
Healing whispers of the angels
No way to limit our goals
Bring the sunrise again!New day shines, fallen angels will arise
Angels lead you through paradise
Nova Era brings the ashes back to lifeAll over now, sores in pain and awful lies
Nova Era is a passage to your mind
And forever you may find a better time
Nova Era bring the angels back to life... Life
