

# Seized and Devoured

## Rings of Saturn

Rebirth, turmoil among the slaves  
Cosmic realms far beyond the sun implode  
We are not of this world  
Abandoned our home; now we've come to take yours  
Unleash this wrath on your pitiful people kneel before my minions, as they kneel before me I take the form of a  
god  
The mindless follow me  
The gluttony I find in this filthy waste of life disgusts me  
Seized and devoured by your loving sun  
Migration of the slave human pigs  
No charred remains  
I take the form of a god  
The mindless follow me  
Cosmic realms far beyond the sun implode  
We are not of this world  
Abandoned our home; now we've come to take yours  
Unleash this wrath on your pitiful people Shipped off like cattle, butchered, now you'll see
