Air Balloon

Pop Beatz

Well, he was a bore and she needed more
And so she took a train
to the coast of Maine
And she dove right in
It took a while to notice
That she was gone for good
Now everyday he takes sometime to play
And he's better manREPEAT:
I'm floating away in this air balloon
I thoughtif you came
We would chase the moon
Imagine if you can, if you can
We're floating away, we're floating awayI saw an old man in Texas
He was singing songs out in the street
During the second song
He moved his mouth a little wrong
And his teeth fell out
Then he says to me:
"Don't you hate it when that happens?"
I said, "I really wouldn't know"
He said, "Sooner or laterit falls apart
And maybe sooner than you think"
REPEATIn my airballoon
