Masterpiece (x4)Verse 1:

I got that bomb, I got what them boys want
When I put it on him right, we be at it til dawn
Have your mans' face to work, he love the way I twerk
He love the way I bust it, he love the way I fâ€”k
And now he's talking about, settling down
Meet his moms, why settle now?
Cause your girl with the drama?
He ballin' out on me, feel like I hit the number
right I feel that bone, causing I'm peeping undercoverHook: He say I'm a masterpiece

Call me Master P

Cause there ain't limiting, when I make that body say

Ooh (x4) Yeahhh

He loving how I rock that thang,
Feel like we in a dream, cover of life

We fall back in the bed again

Ooh (x4), Yeahhh

Do it (x5)

Do it, do it babe (x5)Kid Culprit:

Girl you got what I want

Come and get what you need

I tattooed triple X on my stomach

Come and see what that means

I drop like 500 G's

Treat you like the real Mona Lisa

I put that body on the wall

Show you how to paint a masterpiece

Said she want a new whip with that top back

Ass fat, so I cop that

Kill time with that Dutty Wine

So I locked it down with no copybag

Now work it, girl don't close those curtains

Let these people see it, make it clap on repeatedHook
