

# Too Much of a Good Thing

Bon Jovi

Love is like quicksand  
It's always bringin' me down  
I still keep comin' back for more And like an addiction  
One is never enough  
I'm like a junkie at your door Too much of a good thing  
Is like getting high and coming down My heart's on a string  
I've been blind to the sting  
Getting much, too much of a good thing I came to your party  
And stayed a little too late  
You woke me naked on the floor You are my strongest weakness  
And I don't want nothin' else  
You got the fix I'm looking for Too much of a good thing  
Will turn your whole world upside down My heart's on a string  
I've been blind to the sting  
Getting much, too much of a good thing She's my favorite disease  
Makes me crawl on my knees  
Getting much, too much of a good thing Like you partied all night  
And you're too trashed from drinking  
The only way out is another shot glass to sink in  
Tell me, baby, what will it take  
'Cause I keep makin' the same mistakes My heart's on a string  
I've been blind to the sting  
Getting much, too much of a good thing And I know it's no good  
Yeah, I'd quit if I could  
Getting much, too much  
Getting much, too much  
Oh, it's just too much of a good thing
