Callin' My Name

Chris Young

Like a desert calls the rain on the hottest driest day
And when those storm clouds hit it comes alive
Like a guitar calls for strings, without 'em it can't sing
About that girl, she's my world, the one thing on my mindIs that riding down the road, her shotgun with me
Those come-to-bed eyes when she's had too many
That way she don't have to say a thing
She's callin' my name
That wink when her dress starts falling
The way she's gotten my heart wrapped up all in one look
She don't even say a thing
And she's callin' my nameLike a jukebox calls for change so it can pick a love song to play
Just like last call calls for one more drinkIs that riding down the road, her shotgun with me
Those come-to-bed eyes when she's had too many
That way she don't have to say a thing
She's callin' my name
That wink when her dress starts falling
The way she's gotten my heart wrapped up all in one look
She don't even say a thing
She's callin' my name, callin' my nameHer kiss, her touch says please stay longer
Every day her love gets stronger
She's callin' my name
With every glance it just gets louder
I can't help but think about her
She's callin' my nameIs that riding down the road, her shotgun with me
Those come-to-bed eyes when she's had too many
That way she don't have to say a thing
She's callin' my name
That wink when her dress starts falling
The way she's gotten my heart wrapped up all in one look
She don't even say a thing
She's callin' my nameThat girl is callin' my name
