

Hot n' Ready

UFO

You knock me out you're like a well oiled Smith and Wesson
Hot and ready, ready to use
Dressed to the nines, you know you don't look fifteen, there's no question
Not and ready, ready to use
I'm coming through I've gotta get to you babe
I'm coming through I've gotta get to you babe
Don't need i.d. and there's no house detective to crowd you...
Hot and ready, ready to use
Slip in the back door and slip out of what ever your into
Hot and ready, ready to use

I'm coming through I've gotta get to you babe (2x) I'm coming through, I've gotta get to you babe (2x)
