

Lament

Demis Roussos

I've long awaited for the day
That comes to set me freeAnd all I ask
As I'm a fool
Is love for You and meFor now and each and every day
The moon, it changes [us] allAll the misery lies
Set to blind Your eyes
All in all
For from seeing YouAll I need is a simple truth
Cause I believe in YouA story telling silent [order] make believe us true
cause I will know
A time to climb above my lonely soulI reach out with my heart
To the moment divine
And feel my love grow Freedom divine
Freedom divine
Freedom divine
Freedom divine
Freedom divineAll I need is a simple truth
Cause I believe in YouA story telling silent [order] make believe us true
Cause I will know
A time to climb above my lonely soulI reach out with my heart (Freedom divine)
To the lonely divine (Freedom divine)
And feel my love growFreedom divine
Freedom divine
Freedom divine
