Time And Time Again

The Monkees

Ohh oh, ohh, yeah, yeah
Ooh ooh, aw, yeah
Oh, yeah
Aw, yeah, yes, woo
The things you say to me, can't make or break me
Everything you bought I give back absolutely everything
And, I am through wit'chu, you and your crazy moods
You be trippin' and slippin' and givin' attitude
(Holla)
I deserve the finger things, the joy that love brings
And you'll be missin' my kisses and makin' love scenes
I'm better off alone, can't wait 'til you get gone
Ain't no need to keep hopin' 'cause it's, over and done
Why do you keep comin' back, time and time again
You promised me you'd change your ways, time and time again
I heard the same old line from you time and time again
And why I take you back because I cannot change you man
Why do you keep comin' back, time and time again
You promised me you'd change your ways, time and time again
I heard the same old line from you time and time again
And why I take you back because I cannot change you man
(Yes)
No use in talkin', better get to walkin'
Better get them chicks who turn tricks 'cause I'm just too smart
Man, I hate men who lie, who look me in my eyes
Come up with alibis, for the thousandth time
I won't take bullshit, leave your ass with the quickness
Because I'm stable and able to live my life alone
Boy I'm through wit'chu, no more to say or do
'Cause you're too confused, and it's over and done
Why do you keep comin' back, time and time again
You promised me you'd change your ways, time and time again
I heard the same old line from you time and time again
And why I take you back because I cannot change you man
Why do you keep comin' back, time and time again
You promised me you'd change your ways, time and time again
I heard the same old line from you time and time again
And why I take you back because I cannot change you man
I be comin' with a rap on a ballad

You should vote Misdemeanor on your ballots
'Cause you know I blow your mind any time that I rhyme
And I'll be down for a challenge
I'm, wicked, I C K icked
Not Twista twisted
From coast to coast I brag and boast
I'm better than most and sufficient
I got that good love, that goody, goody, good love
That puddy, puddy, pusha
Slick talkin' sista, to any nigga
That wanna get with her
Don't never diss her
M dot S E
And let me stop playin' with y'all motherfuckers
This ain't no rap record, get back to the hook
Why do you keep comin' back, time and time again
You promised me you'd change your ways, time and time again
I heard the same old line from you time and time again
And why I take you back because I can not change you man
Why do you keep comin' back, time and time again
You promised me you'd change your ways, time and time again
I heard the same old line from you time and time again
And why I take you back because I can not change you man
