

# Sail with Ease

[Liam Bailey](#)

its a pale sky with a warmth and certainty  
getting easier to be  
you can feel sun, you can feel the energy  
catch the wind and sail with ease  
nobody knows your name x2  
nobody plays your game x2  
tomorrows still untold  
you can go your way, you can be true x2  
its the sweetest thing with the ocean all around  
its to find this melody  
you can be yourself you can do your thing  
find your voice and start to sing  
nobody knows your name x2  
you don't play their game, you don't play their game  
tomorrow is still untold  
you can go your way, you can be true x4  
now that we found it, now that we own it, now that we surely come of age down in your  
garden those gates are open yes surely we've come of age  
you can go your way, you can be true x4  
you can be true x8
