Where I Stand

Shannon Hurley

Iâ€™ve got my eye
There on the skyline
Where I can see
The beauty below
Caught in a whirlwind
Chasing the landscape
Telling myself I donâ€™t wanna go because

I know where I stand
I know where I stand
When I feel you take hold of my hand
I know where I stand

Sometimes itâ€™s hard
To look at you
To see all the things weâ€™re going through
Maybe itâ€™s time
For us to part
To say our goodbyes and
Leave in the dark because

I know where I stand
I know where I stand
When I feel you take hold of my hand
I know where I stand

I never thought Iâ€™d get over
Losing something
That meant so much to me
It turns out I never lost you at all
Youâ€™re right here
In my heart

I know where I stand
I know where I stand
When I feel you take hold of my hand
I know where I stand
