

Brighter Days

J Boog

sometimes the sun shines but the sun's on the other side and all the clouds block out the way
sometimes you want the road to be straight but a lot of times you reach a point where it splits four ways
sometimes its why you plan you don't wanna try and where you're at you just want to staysometimes...
you wish you would give it another life its yours to live not yours to trade

Hold on...

Doesn't help to cry but tell me why tears flood your eyes now just

Hold up...

Maybe because what you're feeling inside is too much to act now

Life is gonna get much shorter

That's what gonna make you stronger

Trust me it won't be much longer

Cause we'll try anything we will conquer

Yeah yeah Aye

Never give up have a little faith and just wait it's gonna be a brighter day
all the pain and the struggle well it's not in vain and just wait it's gonna be a brighter day
