Cherry Bomb

Magnapop

Hidden in a room
There's a cherry bomb
Outside of this place
He grabbed my arm
I made the call
I made a lot of coffeeMy throat gets tight
I watch you suffer
Inside of myself
I start to fall
Outside of this place
I'll catch it allDon't say anything
Don't think anything
Don't do anything
Don't feel anythingI've seen a lot of love
It never seems to stay
Bound to one
Who'd rather see me lose
Than dignify my questions
Or say it straight
Explain intentions
Explode the bombDon't say anything
Don't think anything
Don't do anything
Don't feel anythingExplain to me
The power force
We get along
Along the way you suffer
Bound to one
And then they're gone
You suffer me
I let you downDon't say anything
Don't think anything
Don't do anything
Don't feel anythingCherry bomb
Cherry bomb (cherish)
Cherry bomb (cherish)
Cherry bomb (cherish)
