Entity

Project Pitchfork

here I come
to increase my power
here I come
to increase my control
I make you think
there is a devil
but it's in you
it's your malice
I love your hate
your hate lets me grow
I'm your tool
and your my toy
and your my fool
you conjure me
you think you rule over me
well that's my intention
you can't escape the invisible
you call me demon
I'm an angel
give me your blood
I'm your servant
while you're enjoying the might
the bonds are getting tighter
in coming lives you'll pay the price
