

Sad Mystic Moon

Rhapsody of Fire

Somewhere, somehow
I'll always be there
Listen in silence
Free from this chain Immense
Le onde su me
And you know
It's not a dream anymore Sad mystic moon with shades of grey
Breathing life into my dreams
Save my soul from endless pain
Wash with your flames all my sins Listen, so silent
All this waves again
Thinkin' 'bout future looking through my past Immense
Le onde su me
And you know
That I will always be there Sad mystic moon with shades of grey
Breathing life into my dreams
Save my soul from endless pain
Wash with your flames all my sins Tormenti
Lamenti su me
Immense
Sono le onde su me Sad mystic moon with shades of grey
Breathing life into my dreams
Save my soul from endless pain
Wash with your flames all my sins Sad mystic moon with shades of grey
Breathing life into my dreams
And save my soul from endless pain
Wash with your flames all my sins
