## **TCTS**

You, answer for you And when I see you there, I know it's true You, answer for you I need to know if you can feel the same as I doYou are always thirsty for the lovin' Making me feel like I'm not worth somethin' While you playing this like I'm a fool Knowing full well that I want you Now that's just cruel And you know it's trueWe have been through too much for you to let go To let go Tell me how you feel and we can take it slow Take it slowYou, answer for you And when I see you there, I know it's true You, answer for you I need to know if you can feel the same as I doYou are always thirsty for the lovin' Making me feel like I'm not worth somethin' While you playing this like I'm a fool Knowing full well that I want you Now that's just cruel And you know it's trueWe have been through too much for you to let go To let go Tell me how you feel and we can take it slow Take it slow
