

# Wink

Neal McCoy

I woke up this morning my head felt dense  
I splashed it with water trying to make it make sense  
I stumbled to the kitchen she was standing at the sink  
All she had to do was just give me that wink And slam bam I'm feelin' alright  
Troubles take a hike in the blink of an eye  
Don't need to psychoanalyze or have a stiff drink  
All she's gotta do is just give me that wink Well it's her way of saying she's on my side  
An unspoken message that works every time  
When my brain starts smokin' and I can't even think  
All she's gotta do is just give me that wink And slam bam I'm feelin' alright  
Troubles take a hike in the blink of an eye  
Don't need to psychoanalyze or have a stiff drink  
All she's gotta do is just give me that wink In this complicated world it may sound absurd  
But simple little things are the miracle cures  
Pushed to the limit or standing at the brink  
All she's gotta do is just give me that wink And slam bam I'm feelin' alright  
Troubles take a hike in the blink of an eye  
Don't need to psychoanalyze or have a stiff drink  
All she's gotta do is just give me that wink And slam bam I'm feelin' alright  
Troubles take a hike in the blink of an eye  
Don't need to psychoanalyze or have a stiff drink  
All she's gotta do is just give me that wink  
All she's gotta do is just give me that wink
