

Vertigo

Tokyo Police Club

Ten thousand feet took me by surprise
Can't even remember which way is home
Tiny little people, tiny little cars
It's a real small world when you're way up high
And things seem blurry when I'm looking down
And all my senses start to stop
Cause I get vertigo
Cause I get vertigo
Every time
Ten thousand feet is a long way down
I can't even remember which side I'm on
Pushing up the daisies, or pushing for a raise
It's a big bad world until you're underground
Should I be worried when I get this way
Cause I can't tell which way is up
I get vertigo
Everytime
I get vertigo
I get vertigo
Everytime
My heart goes over the edge
I see it all in my head
Going down down down down
Cause I get vertigo
Cause I get vertigo
Everytime
I get vertigo
I get vertigo I get vertigo x4
Everytime
Everytime
