Commons Brawl

Jethro Tull

All right and honorable gentlemen And lady, too Will kindly try to restrain themselves In derring doAs verbal hard graffiti flies And echoes wall to wall Our precious model of democracy It's the house of commons brawlOne member from some dark mill town Furious did cry He spittle froth from folded chin To dim the lieLet's serve this brief and list the rush Of who's allowed catcalls Let's finish this right here and now At the house of commons brawlKick, punch with the government As with jackets off they fly heaven bent Scratch gouge with the other side As the party firmly admit a fightAnother day in the lives of those Who would guide us through If all is prepped that we should By their example doBut there again I think for less For gyving to the wall The wrong house but the right idea
