Best Enemy

Against All Authority

It echoes in my head
These words we've left unsaid
Those things to hard to hide
Still haunt me somewhere deep insideI know that many others knew
Thin words that I can see right through
Fall between the cracks of what we once made
I'm silent but I feel betrayedThe words you sell, I'm just not buying
I've grown so sick and tired of always trying
It shouldn't be this hard, it shouldn't be this hard
To give you the benefit of the doubt
My patience has run out
And I would have followed you to our death
But now in pieces our friendship must restAm I just paranoid?
Am I so self-absorbed?
I hear them laugh at me
My best friend is the enemySo just where the hell did it all go wrong?
Buried deep within this stupid song
Are the feelings that no words could say
When best friends become enemiesThe words you sell, I'm just not buying
I've grown so sick and tired of always trying
It shouldn't be this hard, it shouldn't be this hard
To give you the benefit of the doubt
My patience has run out
And I would have followed you to my grave
But now I guess we're enemiesAnd I can't tell if you even care
I ignore the ice cold stare
That chills what's left inside of me
My best friend and my enemyWhere the hell did it all go wrong?
Where did we go wrong?
Where the hell did it all go wrong?
Where did we go wrong?
Where the hell did it all go wrong?
Where did we go wrong?
Ignoring words we left unsaid
Made enemies out of friendsWhere the hell did it all go wrong?
Buried deep within this stupid song
Are the feelings that no words could say
When best friends become enemiesWhere the hell did it all go wrong?
Where did we go wrong?

Ignoring words we left unsaid
Made enemies out of friendsWhere the hell did it all go wrong?
Buried deep within this stupid song
Are the feelings that no words could say
When best friends become enemies
