

Where Are You Now

Gary Moore

Where are you now â€“ Gary Moore
Sometimes I wonder
What would have been
If the distance hadn't meant to be so far between
Sometimes I wonder
What you would say
If you could see the place I came to be today
Where are you now?
Now when I need you by my side
So many tears I've cried since you've been gone.
Where are you now?
Now when I need you by my side
Forever we're connected by the ground beneath our feet.
