We Welcome You

Men Of Judah

I am so different from the normal of today
I have this passion that will not go away
I desire you more than gold
But I'm extreme is what I'm told
You are the giver of my life
And I want to live it right

I want nothing but the truth
Don't let me stray away
I lay it all down no matter what men say
Hide it in my heart burn it in my soul
No matter what the cost no price is too great
Pagan stables
It would be easy to take the wide road
Seeking the pleasures of this world to comfort my soul
I will not believe that lie
You're the only one who satisfies
No matter what the others do I'm devoted to You

I will be your voice
Lord teach me Your ways
I'll tell others how You love them
How you sent Your Son to save
I'll reject the natural and I will seek Your Holy face
If I search and said I'd find You
And be covered in Your grace
