## **Brother**

## **Edward Sharpe & The Magnetic Zeros**

Somewhere over the earth

A song, a song

Somewhere I have heard

My brother is goneAway, under the moon

Brother, brother

Away, gone so soon

Still singing his tune

Still singing his tuneAnd away he gone day

And away he gone night

And away he gone dark

And away he gone lightUp and away he gone away

But in a way he gonna stay

Oh, brother of hearts

We'll be singing someday

Yeah, we'll be singing someday

Oh, we'll be singing somedayOh, brother of hearts

We'll be singing someday

Undead audio

Yes, we'll be singing right nowSome say I am to blame

Brother, brother

Some days I fell the same

And feeling that shame

Away under the moonBrother, brother

Away gone so soon

Still singing this tune

Still singing his tuneAnd away he gone day

And away he gone night

And away he gone dark

And away he gone lightUp and away he gone away

But in a way he gonna stay

Oh, brother of hearts

We'll be singing someday

Yeah, we'll be singing someday

Oh, singing somedayOh, brother of hearts

We'll be singing someday

Undead audio

Yeah, we'll be singing right now
