

Happy Man

Chic

Happy man, happy man, that's me
Happy man, for you all to see
Happy man, and the world is my home
Happy man, with a style of my own
When you see me, I'm a smilin' face
Spreadin' all my love around the place
All around the world I go travelin'
When they see me come, they start to sing
I'm a happy man, happy man, that's me
Happy man, for you all to see
Happy man, and the world is my home
Happy man, with a style of my own
Hanging out all night with the jet set
And I party every little chance I get
Don't you know life can be real nice
And if it's good, I do it twice
I'm a happy man, happy man, that's me
Happy man, for you all to see
Happy man, and the world is my home
Happy man, with a style of my own
Happy man, happy man, that's me
Happy man, for you all to see
Happy man, and the world is my home
Happy man, with a style of my own
Happy man, happy man, that's me
Happy man, for you all to see
Happy man, and the world is my home
Happy man, with a style of my own
I'm a happy man
