Come Back

Jean B. Gerbier

Come back
When I told you I loved you. It come straight from my heart.
For some unknown reason you left me broken hearted.
All I am asking you for now is just a little chance, so I can
show you what love is all about

Chorus
Come back, come back, I need you night and day. I need to
reunite with you. Come back, come back, just a little chance my love.
I need to reunite with you. Come back, come back said I need to
pray with you, I need to reunite with you.
