

Might Makes Right

Camper Van Beethoven

Yeah might makes right
Yeah might makes right
They say that god is on our side and made us mighty
Yeah might makes right
Yeah might makes right
They say that god is on our side I don't believe them I'm crawling through the ? brush, we're teched up to the hilt
Compared to us these poor guys should be wearing shorts and kilts
I've got a living breathing shadow crossed up in my scope
My partner gives the signal, pull the trigger, then there's smoke Might makes right
Yeah might makes right
They say that god is on our side and makes us mighty
Yeah might makes right
Yeah might makes right
They say that god is on our side I don't believe them Might makes right
Yeah might makes right
I guess that god is on our side and makes us mighty
Yeah might makes right
Yeah might makes right
They say that god is on our side I don't believe them They want us from the villages, they want us from the
towns
Who could really blame them, shit blows up when we're around
We fly above their houses with our Huey double-props
We scare the crap out of their kids, their mothers and their frocks Might makes right
Yeah might makes right
I guess 'cause god is on our side it makes us mighty
Yeah might makes right
Yeah might makes right
They say that god is on our side I don't believe them
