

It's Funny They Can't See Us from Here

Scream Out Loud

It's time for a change, this time for real
If you're on the same boat then who's steering the wheel
I'm just a follower, just like you
but who will stand and lead this crew

If i fell overboard would you throw me a rope
To pull me back in, to keep this afloat
Or would you watch me drown and sink slowly
To the bottom, that's where i first began

Only this day will tell if we have what it takes
To make it through the storm, Will this ship sink
Lets be the lighthouse that guides us through the night
And with our bright light we'll make out this time
Make it out this time

If i fell overboard would you throw me a rope
To pull me back in, to keep this afloat
Or would you watch me drown and sink slowly
To the bottom, that's where i first began

Please pull me back in
And don't lose sight of me again

If i fell overboard would you throw me a rope
To pull me back in, to keep this afloat
Or would you watch me drown and sink slowly
To the bottom, that's where i first began
That's where i first began
That's where i first began
