Don't Care

Victor

Shut up and turn off the light
I'll take you deep right through the night
Just leave before you're in my sight
'Cause I don't need another fightAnd I don't need your sympathy
You'll get no tender love from me
Kneel before me on your kneeDo it hard, make me free
Do it hard, make me free
Do it, make me free
Do it hard, make me freeDon't want your pity
Don't want your care
Don't care for giving
Don't care for fairDon't want your kindness
Don't want your heart
Don't care for wanting
Don't care for smartI'll come to you from behind
You know my touch will not be kind
You'll feel my loveless power bind
No feelings here that you can findBetween you're legs I will lay
On you're back you better stay
I'm gonna fuck you night and dayDo it hard, make me pay
Do it hard, make me pay
Do it hard, make me pay
Do it hardDon't want your pity
Don't want your care
Don't care for giving
Don't care for fairDon't want your kindness
Don't want your heart
Don't care for wanting
Don't care for smartI don't need your sympathy
You'll get no tender love from me
Just kneel before me on your kneeDo it hard, make me free
Do it hard, make me free
Do it hard, please make me free
